

kepler::Parser::Parser

```
graph LR; A[kepler::Parser::Parser] --> B[kepler::SymbolTable::attach_parent]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'kepler::Parser::Parser'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'kepler::SymbolTable' on the top line and '::attach_parent' on the bottom line.

kepler::SymbolTable
::attach_parent
