

/Users/nikolajbankejensen
/Desktop/Kepler/src/core
/datatypes.h

```
graph TD; A["/Users/nikolajbankejensen  
/Desktop/Kepler/src/core  
/datatypes.h"] --> B["vector"]; A --> C["string"]; A --> D["complex"];
```

The diagram illustrates a header file structure. A top box contains the file path `/Users/nikolajbankejensen/Desktop/Kepler/src/core/datatypes.h`. Three blue arrows originate from the bottom of this box and point to three separate boxes below it, labeled `vector`, `string`, and `complex`.

vector

string

complex
