

kepler::Interpreter
::build_operation

```
graph LR; A[kepler::Interpreter::build_operation] --> B[kepler::to_string]
```

A diagram showing a call from the `kepler::Interpreter::build_operation` function to the `kepler::to_string` function. The source function is in a grey box on the left, and the target function is in a white box on the right. A blue arrow points from the source to the target.

kepler::to_string
